

Saddle Rack Assembly Instructions

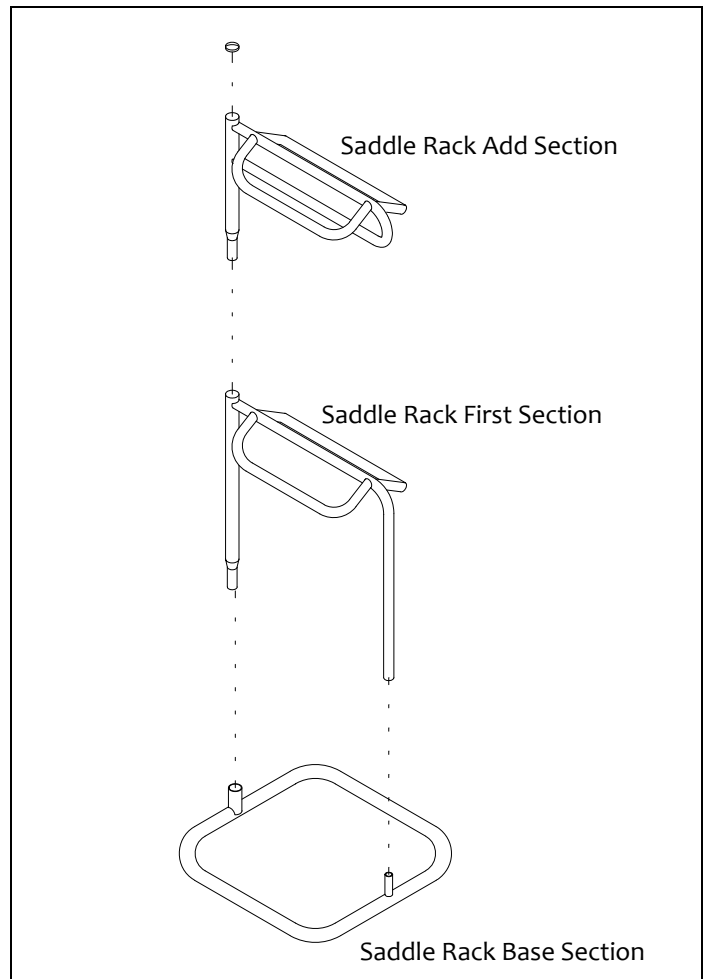

Wall Mount Assembly

Slide the Wall Mount Connector onto the top of the Saddle Rack Add Section as shown. Then slide the other connector over the bottom of the Add Section. Then bolt the top and bottom connectors to the wall.

Stand Alone Assembly

Place the Saddle Rack Base Section flat on the ground. Then slide the Saddle Rack First Section into place. One tube of the First Section will slide inside the Base Section and the other tube will slide over the other tube on the Base Section, as shown. Remove the cap from the top of the First Section. Then slide the Add Section into the top of the First Section. To finish the assembly, place the cap in the top of the Final Add Section.
