

RODEO

PROUD SPONSOR OF

Our rodeo equipment is as tough as those who use it. From roping chutes for your backyard to complete arena systems for sanctioned events, Powder River has the equipment and design experts to help you develop the ideal Rodeo facility.

Elite Roper is the Official Roping Chute of the College National Finals Rodeo

Automatic Elite Roper Order No. 051-07002

Now you can open the Elite Roping Chute from almost anywhere with Powder River's new wireless remote control. It's as easy as pressing the button to release your calf or steer from the chute.

FEATURES

- ✦ Exact same chute as manual Elite Roper
- ✦ Wireless Remote Control that is small enough to put in your pocket
- ✦ Smooth and Quiet release
- ✦ Works from as far a 100 feet
- ✦ Requires 110v outlet

051-07002	Automatic Elite	485 lbs
051-07005	Add Section	353 lbs.

I would like to thank Powder River for the tremendous support and job well done at the College National Finals Rodeo. Their staff goes above and beyond what is expected, and their expertise of their great product shows. We have even outfitted our arena with their updated timed event equipment, and a squeeze chute at our ranch. Great job guys and thank you on behalf of the NIRA and myself. — Jim Dewey Brown, CNFR Arena Director

ELITE ROPING CHUTE IS CNFR PROVEN

- Smooth, quiet release for optimum animal performance
- Eye-catching, striking two-tone color design complete with Powder River rodeo logos

 Ryan J. VonAhn and Trevor B. Connolly,
 Team Roping Champions,
 Rachel L. Tiedeman, Barrel Racing Champion
 Jessica N. Picchiatti, Breakaway Champion
 Sarah A. Mulholland, Goat Tying Champion

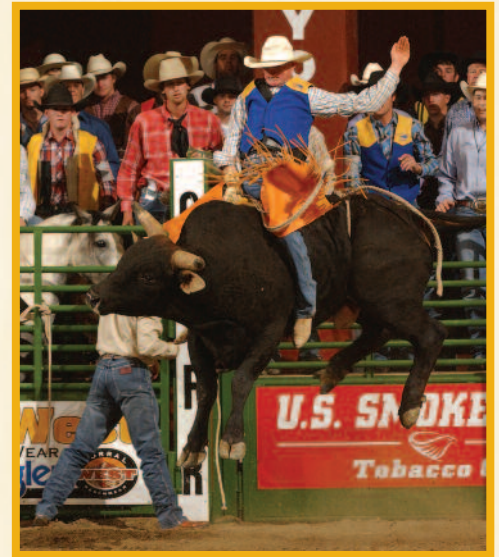

Bucking Chutes

The spring-loaded gate lever latch creates a smoother, easier gate release, which allows the gate man a quicker and cleaner opening. When determining right-hand or left-hand delivery, the animal's head will always be on the hinge end of the chute with the gate being on the side the animal will buck out. *(Bucking Chute shown is a right-hand exit chute.)*

Powder River builds both quality and strength into each piece of rodeo equipment that they sell, that makes College Rodeo proud to have them as a sponsor. The quality of their equipment, experienced staff that provides support, all contribute to a better College National Finals Rodeo each and every year. It makes no difference if it is rough stock or timed event, the equipment makes for a safer environment for both livestock and contestant. That means a better performance for the spectators and contestants alike. We are very proud to use Powder River Equipment at the College National Finals Rodeo. Roger B. Walters, National Intercollegiate Rodeo Association- Commissioner College National Finals Rodeo-Manger

CLASSIC RODEO PANELS, GATES AND BOW GATES, PROVIDE A 1, 2, 3 PUNCH WITH HIGH TENSILE STEEL, PENTAGONAL RAILS, AND FORMED DOUBLE SIDED STAYS

- High Tensile Pentagonal Rails are made to be abused — our high tensile steel is 66% stronger than the more common “mild” steel round tube rail panels
- Simply better engineering, our Signature Pentagonal Rails are an incredibly stronger shape than round rail and provide superior recoil which gives years of intense use
- 70” tall — 6” taller than standard classic provides you additional peace of mind that the “Bull Stops Here” at this panel or gate
- We are so confident in this panel we provide an unheard of 5 year limited warranty

Super Classic Bull Panels

Made especially for rodeo arenas, these 70-inch tall Super Classic Bull Panels are constructed of the same heavy 14-gauge rails and 13-gauge frame material as our Classic Line of panels. Square corners add safety to a sport that is known for crossing the line. Our Super Classic Bull Bow Gates will provide your corrals and arenas with the support they need without posts.

Super Classic Bull Bow Gates

The 9-foot high Super Classic Bull Bow Gates can be used in permanent or portable rodeo arena systems. 60-inch Super Classic Bull Gates are hung within the 9-foot high bow.
