

# POWDER RIVER HEADGATES

**Classic Stanchion**

A Powder River innovation, this Classic Stanchion features adjustable safety yokes allowing operators to remove the yokes providing the animal with a straight drop-down stanchion. For more control, the yokes can be returned to the stanchion, and an optional neck extender gives even further control. Perfect for all sizes of cattle, the unit bolts directly to posts, or pins to Classic Panels using the included single clevises. Available wood-to-panel adapters simplify mounting the unit to wood.
