

# Systems That Work for You

## System 2000

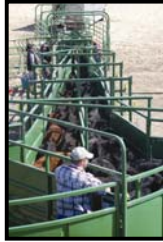

Order # 007-50009

- Most advanced working system available
- Fully integrated
- Can be designed to fit almost anywhere

Order # 007-50011

## Double Down Tub & Alley

Order # 006-30200 (Chute and Preg Gates not included)

- Dual entry from sweep tub means easy, stress free cattle flow
- Double Alley gives you twice the cattle in working position
- Alley is adjustable for handling all sizes of cattle
- Add sections available to create your desired alley length
- Easy to assemble with our pin and clip connecting system

## Cattleman's Tub and Alley

Order # 006-30000

- Most affordable sheeted system available
- Versatile to meet your design needs - end or center feed, curved or straight alley
- 67" height is high enough to keep cattle in but low enough to work the tub and alley from the ground without a catwalk

## Classic Deluxe

Order # 011-00030

- If you like our original classic crowd alley you will love this one
- Half sheeted alley allows for easy access to cattle in the alley

## Homesteader Deluxe

Order # 011-00003

- Toughest open rail system on the market
- Adjustable alley – can handle calves to bulls (*alley wood not included*)
- Portable and assembles in less than an hour

## PRXL7 Tub and Alley

Order # 010-50100

- Portable – will fit in full-size pick up
- 72" height and 2" diameter tubing creates intimidating barrier
- Top & bottom braces between each tub panel provides a safe working area
